97 community partners helped make it happen

3000 students received school-wide supports

117 volunteers gave 9331 hours

Imagine wanting to go to school, but having no shoes to wear. Wanting to learn, but being too hungry to think. It may sound like an overwhelming issue, but the solution is simple. Young people thrive when adults care about them on a one-to-one level. That's exactly what we do.

Communities In Schools of Seattle is dedicated to keeping kids in school and helping them succeed in life — doing whatever it takes. Whether it's a ride to school, tutoring, mental health services, or a much-needed meal, we connect students to the help they need to reach their full potential. By bringing the community's resources into the school, then matching these services to each student's needs, we are breaking the cycle of poverty and empowering students to create better lives, better communities, and a better world.
